

ANNOUNCEMENT

BC Automation to Showcase Secure, Scalable Industrial Infrastructure at Southern Arizona Tech + Business Expo

Tucson, AZ – September 5, 2025 —

BC Automation returns to the Southern Arizona Tech + Business Expo with a full demonstration of its edge-to-cloud automation and traceability infrastructure. Held at the Tucson Convention Center, this October 15th edition follows BC's successful July presence at the AADM 2025 conference.

The spotlight remains on real-time, role-aware infrastructure designed for critical industrial confidence. Intelligent edge devices, AI-augmented dashboards, and zero-trust, encrypted telemetry will anchor BC's live setup.

“We’re connecting operations to outcomes, and telemetry to trust,” said Thomas Schwieters, Chief Technologist at BC Automation. **“From the line to the atmosphere™ — that’s our mission, and our method.”**

Intelligent Infrastructure, Live at the Edge

BC’s MIP Stack, secured with SPA™ architecture and enhanced by MetaLoop adaptive logic, will be on full display, including:

- Real-Time Edge Demonstrations
Live telemetry, KPIs, and adaptive control via Vizionary™ UI
 - TrustLabel™ and TruthLabel™ Traceability
Immutable, scan-verifiable custody layers for critical product integrity
 - Quantum-Resilient Telemetry
SPA™-secured, Zero-Trust data pipelines and encrypted control logic
 - Operator-Ready Insights
From role-based dashboards to ReflexIQ™-enabled technician support
-

Traceability & Autonomy — From the Floor to the Future

Attendees will experience a live demonstration of how BC Automation’s platform supports:

- Secure batch traceability and operator prompts

- Real-time quality alerts and recall visibility
- Autonomous data pipelines — secured, structured, and insight-ready
- Adaptive sortation, buffering, and flow logic for next-gen logistics

Join Us at Southern AZ Tech + Business Expo

The BC Automation team will be on-site with a two-screen demo setup, QR-enhanced materials, and a full suite of traceability and telemetry tools for today's mission-critical operations.

📍 Tucson Convention Center — Tucson, AZ
